**evocation** is an initiative of The North West Learning Grid, Manchester and Salford City Learning Centres and schools in the North of England. Their aim - to produce high quality e-learning materials for teachers and learners at Keystage 4. Young talent in e-learning, leading schools and exemplar teachers have come together to bring you the best in teaching resources and curriculum support. Engaging and stimulating e-learning that can easily be embedded into mainstream teaching will bring learning to life for KeyStage 4 children.

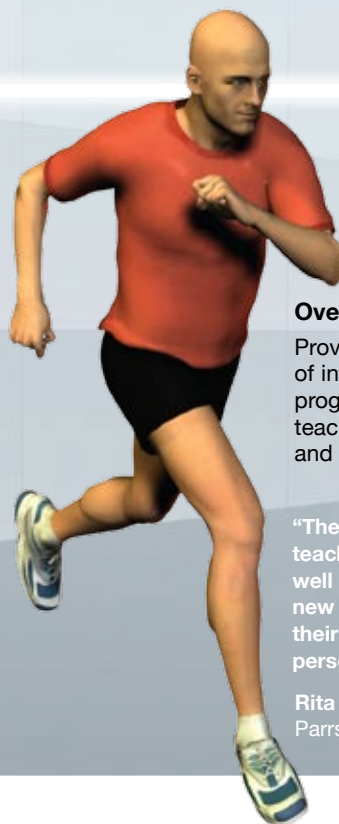

All materials are available on DVD for stand alone use on individual computers, download onto school servers or upload into Virtual Learning Environments. All resources are suitable for use with interactive whiteboards.

## PE Resource Bank: Disk 1

## 16 Learning Blocks

Covering all the GCSE specifications, 16 learning blocks group information allowing teachers to find what they're looking for quickly and easily, whichever exam board they're teaching to. Once inside a block, the user can select a sub-section which will introduce them to a user friendly screen where they can view tutorials, graphics, animations, games, activities, videos and audios.

## Over 200 Tutorials

Providing straightforward, digestible amounts of information on all aspects of the theoretical programme of study. Suitable as a guide for teacher delivery or for independent study, revision and home learning.

"The resource bank is a fantastic support for teaching and learning. It can be used equally well by both experienced teachers and teachers new to the profession. All my pupils regardless of their ability level found that it made learning more personalised and therefore more enjoyable"

Rita Hesford, AST,  
Parrs Wood High School, Manchester

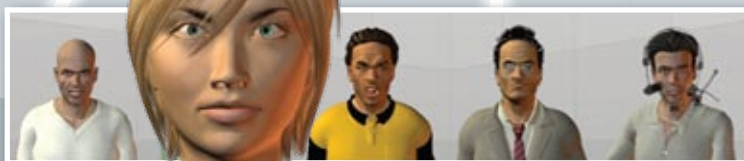

### 350 Graphics and animations

Provide highly visual explanations and demonstrations. Used to support classroom teaching these resources will bring complex concepts to life and make learning memorable.

### 75 Activities and Games

A range of activity types supports the information from the tutorials. Role-played email simulations, beat the computer noughts and crosses, multiple choice races, text input cloze activities and interactive interviews, make learning fun and memorable for every kind of learner.

### Full Supporting Audio and Video Talk Throughs

Supporting different learning styles and settings, let Kate our computer teacher talk learners through everything they need to know.

### Quick Search Feature

Whether you want to search the entire resource bank for that great game you just can't find again or pull up an animation of abduction fast. Type a word into the search box and let the programme show you everything it's got on that topic or select to see just games, tutorials, graphics or talk throughs if you're looking for something specific.

"I found this an invaluable learning tool for the pupils. The main reason for this is that the material is visually stimulating and it engaged all range of abilities."

Dean Stokes, PE Teacher,  
Abraham Moss High School, Crumpsall, Manchester

## Disk 2: V.L.E. Format

Disk 2 contains the PE Resource Bank packaged and ready for delivery via a Virtual Learning Environment. To add the Resource Bank to your V.L.E., load the disk into a suitable computer and then from your V.L.E., create a new SCORM resource, browse to the CD and select. The associated manifest file will recreate the same 16-block menu structure and search feature within the V.L.E. course.

Unfortunately evocation is unable to provide technical support. Please see your institutions technicians or your V.L.E. provider for additional technical support.

## Disk 3: Premier League Skills

Premier League Skills provides development and extension of concepts covered in the PE Resource Bank. Join Eastpool, a fictional football team as they struggle with managerial and tactical issues.

- Read match reports
- Buy new players
- Develop community relations
- Address hooliganism
- Consider player diets and training plans

Suitable for students making more progress or working at Keystage 5. Premier League Skills places theory in context, exploring wider issues in the world of professional sport.

Premier League Skills is a production of Urban Hope distributed in partnership with Evocation
